Market tip from HAT's Thomas Lester: "walkways between buildings are your friends. Yes, the walkways are usually hot, but they're shorter ways to get between the World Market Center buildings, and they're shaded. I'll take 15 seconds of a hot walk versus cutting across the campus in the full desert sun while wearing a suit."

Salads, fruits and other light meals will work better with the large amount of walking done during Market than a heavy meal such as steak or pasta."
