

# HOME OFFICE: KERRIE KELLY

A sturdy wooden desk with a beautifully upholstered wingback chair sits in the center of the room, surrounded by Sherwin-Williams Azure Tide walls and woodwork with creamy linen window treatments. Need to take a pause from the work scene? Nestle in to the plush seating flanking the fireplace to play board games, have intimate conversations or catch up on your latest read. Built for the whole family, kids of all ages have the opportunity to work in this space, too. Outfitted with a built-in homework bar and library, school work becomes stylish and fun.

My favorite part of putting this room together was showing the flexibility and multi-use elements of the space. Layered and natural light welcomes a variety of activities, while the blue shades and splash of tangerine provides a "happy" backdrop to all who visit.
