

LIVING ROOM: NICOLE SALCEDA

Eye for Pretty spaces epitomize that contradiction of California casual—luxury finishes, rich textures, and timeless furnishings arranged in a way that is unpretentious and comfortable. Our signature style is—simply put—elevated. Our designs enhance your life by improving the functionality of your space and the backdrop of your everyday.

I love the warm and approachable vibe this room has. It's pulled together but doesn't feel stuffy or a space you couldn't relax in. The moodier tones in the rug anchor the space while the light furniture keeps it airy. It's a space we would love to bring to life!

EYE FOR PRETTY

AT HOME

- A. Clay pot, **Creative Co-Op**: An oversized textured pot adds interest to any corner. Just add your favorite indoor plant!
- B. Plant, **Pacific Silk Plants**: I'm a big fan of beautiful faux plants that are mistaken for the real thing. No maintenance is perfect for a busy lifestyle.
- C. Mirror, **Four Hands**: Round mirrors aren't going anywhere. I love the little detail at the top and the classic shape.
- D. **Sherwin-Williams**: Elder White is the perfect backdrop of any room. It's not quite white, not quite gray but the just right barely there greige.
- E. **Noir**: I love the new deeper shade this sideboard comes in. Function and style comes together in this perfect piece!
- F. Bench, **Four Hands**: The organic shape of this coffee table makes it interesting and unique!
- G. White Chair, **Dovetail Furniture**: The simplistic design of this chair paired with the most comfortable, pillow like seat makes it a forever favorite!
- H. Cream lamp, **Visual Comfort & Co.**: Soft tones and subtle texture make this table lamp a stunner.
- I. Candle chandelier, **Visual Comfort Co.**: I love an oversized chandelier and this one is large in size but minimalistic in scale.
- J. Couch, **Four Hands**: A slipcovered sofa is perfect for active families. This one has clean lines and a streamlined shape.
- K. Nesting tables, **PALECEK**: These woven nesting tables are so beautiful. They work as side tables and are the perfect compliment to the end of a sofa or by an occasional chair.
- L. Cream Grey Wall Art, **Wendover Art Group**: This muted abstract art is the perfect compliment to the entire room!
- M. Chain, **Bloomington @ Creative Co-Op**: Chunky links are perfect stacked on top of coffee table books.
- N. White vase, **Bloomington @ Creative Co-Op**: I love the shape of this modern vase!
- O. Marble Bowl, **Creative Co-Op**: The free form shape of this marble bowl looks perfect on top of a table or sideboard.
- P. Pillow, **Pom Pom at HOME**: Pom Pom is our favorite source for gorgeous textiles. Their extra-long body pillows are perfect on a sofa or bed.
- Q. Rug, **Loloi Rugs**: The muted, deep colors in this Loloi Amarra rug ground the entire space and set the tone of the room.
