

## HOME OFFICE: WENDY GLAISTER

I like for the projects I do to look like the clients I serve. It's a real joy to get to know my clients' aesthetics, interests, needs and preferences and design a space to fit their lives. It makes my work interesting...I'm always trying something new and finding a way to keep things fresh and distinctive.

I designed this home office for an existing client. She's a rocket scientist and she is building a spectacular contemporary home on the top of a mountain overlooking a beautiful alpine lake in Northern California. She is brilliant and intuitive and it's been a real pleasure to help her put her dream home together. Her office overlooks a breathtaking view of the valley and it is all at once peaceful and powerful. Just like her. The pieces in her office reflect her love of the universe and her refined taste.

# Las Vegas Market - Build the Room: Home Office

## **Build the Room- Virtual Showhouse: LAS VEGAS MARKET SOURCED HOME OFFICE**

I designed this home office with a specific client in mind. She's a rocket scientist...no joke...building a spectacular home on the tippy top of a mountain overlooking a private lake in the Sierra Nevada's near Yosemite. She will have 320 degree views from her office offering the most magnificent connection to the mountain landscape in the daytime and heavenly vistas at night.

When I first started my work with her, she was thrilled with our collaboration and the things I was bringing to her as we put together the hardscape of her home. She exclaimed, "Wendy, how do you do this? It's just amazing how you see things so clearly." And I thought it was so funny to answer, "Well it isn't exactly rocket science." hee hee hee. Just goes to show how we all have our respective gifts that may be used to bless each other.

My client loves soothing tones and visually quiet spaces, preferring to let the astounding views take center stage. That explains the muted color palette.

Here are the reasons for the rest of my selections.....

### **ELK HOME**

<https://www.lasvegasmarket.com/exhibit/65815/prod/1247232>

I chose the ELK Home- red road desk for its sleek form and interesting textural accents. The front and apron are made with natural fir wood and pewter. It's soft and sleek all at once.

### **grouped-argento-chair-6244**

I've always loved the glamour of this Ann Gish *D'Oro* chair for Global Views. It reminds me of Old Hollywood and since my client works in the stars, shouldn't she feel like one?

## [OLY Studio](#)

<https://www.lasvegasmarket.com/exhibit/66156/products>

### **catalogsearch/result?q=sabina&cat=**

The *Sabina Chandelier* from Oly Studio reminds me of the layers of the universe, one world and the next and the next. The softness of the silk shade lends a feminine texture to the room while the geometry of the silk strands likens the way in which constellations are drawn.

## Arteriors

### **kilpatrick-tall-cabinet**

She has a very large office and prefers to live clutter-free....visually and figuratively, so a pair of these spectacular Kilpatrick cabinets by Arteriors flanking the 10 foot windows are just the ticket. They will conceal her printer and paper storage, office supplies, files, etc without any problem. The bronze-gold color of the burnished gold leaf door fronts make a lovely connection to the desk across the room.

## Wendover Art Group

### **minmod-2**

### **minmod-1**

I chose Minmod 1 and 2 because of their simplicity. They are lyrical and make a beautiful connection to the Sabina Chandelier floating above her desk. The mat is wrapped in fabric, which I love for the texture and sophistication it imparts and the frames are done in a shadowbox method, lending depth to the space.

### **Tempaper**

<https://www.lasvegasmarket.com/exhibit/66378/products>

### **astology-black-removable-wallpaper**

There isn't much wall space in her office...just the back wall behind her with the doors to her office and a little at the header above the windows around the room. The windows are a black storefront style, so by placing this black wallpaper by Tempaper around those spaces, the walls and window frames will recede, making the views the main event.

### **Norwalk Furniture**

### **detail.dT/700313-alexander-settee**

This comfy little Alexander settee is the perfect perch for a visitor to enjoy when my client invites other great minds to her mountaintop retreat for brainstorming sessions.

Capella-Accent-Table-24948/?SelectedSKU=24948

Uttermost's capella accent table is really great looking and it's just right for a cup of coffee or a Peligrino for a guest. The star shape is a fun nod to the nature of my client's work as well.

## [A & B Home Inc.](#)

<https://www.lasvegasmarket.com/exhibit/65540/products>

I never do a project without injecting greenery or flowers and A & B Home has a terrific floral and options available for any design setting. It adds a little femininity to the space.

## [Loloi Rugs](#)

<https://www.lasvegasmarket.com/exhibit/66047/products>

### **collections/alchemy**

The abstract nature of Alchemy area rug by Loloi lays a striking foundation for the feeling of this room. The texture is soothing and the fibers will hold up to her feline visitors through the day....(she's involved in kitty rescue).

## [Currey & Company](#)

<https://www.lasvegasmarket.com/exhibit/65754/products>

### **Mandir-Mandir/?SelectedSKU=1200-0274**

I liked the shape and color of these great pyramid accessories from Curry and Co. They're a little unusual and I appreciate accessories you don't see everywhere.

**Bourgeon-Floor-Lamp-8000-0039/?SelectedSKU=8000-0039**

Currey's Bourgeon Floor lamp adds great sculptural interest to the room and carries the bronze-gold finish through the space to keep the look consistent.
